

## North Waterloo Cub Car Rally

### RACING TIMES – 2018

Each division contains approximately 20 cars. In order to accommodate personal schedules (such as hockey, indoor soccer, etc.) we have implemented a division runoff tournament leading to a final championship run-off. The top three winners of each division will advance to the finals.

It will take approximately 25 to 30 minutes to run each division. The times listed below are *approximate times* each division will be racing. *We encourage Cubs and Parents to arrive at least one hour before your scheduled time to watch your car race. We will attempt to keep to this schedule, however due to various circumstances we have often found ourselves to be ahead or behind. For this reasons we encourage Cubs and Parents to arrive at least one hour prior to their race.*

If a Cub's car does not advance to the finals it may be picked up at the registration table at the end of the division race. Cars cannot be picked up until AFTER all of the Judging for the Design Categories has been completed. Judging is typically completed around 11:30am. Only those cars that advance to the finals will be announced. After the races are complete, we attempt to return all unclaimed cars to the Cubs group.

Have fun, be patient and please remember that everyone working to make these races happen are volunteers, please give them your thanks, not problems.
